

EXECUTIVE MASTER IN PROJECT MANAGEMENT AND LEADERSHIP

A programme specially designed for working adults by industry experts

Programme brought to you and delivered by :

OVERVIEW OF UNIMAS EXECUTIVE MASTER PROGRAMMES

Our Executive Master programmes are tailored for busy executives and professionals with ample work and managerial experience. We aim to broaden our learners' perspectives, teach our learners problem solving strategies, and help transform challenges into opportunities.

While designing our Executive Master programmes, we have in mind to bring a learning experience beyond the classrooms and promote disruptive thinking in a VUCA environment. The programme emphasises in design thinking, innovation and technology to accelerate our learners' career into a more senior role and further help to develop their business consulting skills.

UNIVERSITI MALAYSIA SARAWAK

University Malaysia Sarawak (UNIMAS) was officially incorporated on 24 December 1992. UNIMAS is Malaysia's eight university and the first Public University of Sarawak. It started off with two faculties and had 118 students enrolled on 8 August 1993. As of 2022, the university has a total enrolment of more than 16,000 students and out of which around 600 are international students.

The University is strategically located in the state of Sarawak, UNIMAS is an ideal position to offer its students an enriching experience that is unrepeatable elsewhere. Here at UNIMAS, students will be able to not only benefit from a state-of-the art research and academic facilities, but celebrate the explosion of natural and cultural diversity of the state. The learning experience is further enhanced by an integrated learning system tom provide for a well-rounded education.

UNIMAS KUALA LUMPUR LEARNING CENTRE @ GRAND INTERNATIONAL ACADEMY

Grand International Academy Sdn Bhd (1378082-D) a member of the Grand International Edu Group Sdn was established with the prime objective of imparting quality education services and support for both local and international students. GI Academy is also committed to provide excellent executive education, corporate trainings and consultancy services. As an approved Training Provider by HRDCorp our training programmes are comprehensive and are structured in a way to deliver industry specific skills to our participants (executives to senior management) from various disciplines and across different industries.

As UNIMAS Learning Centre Kuala Lumpur, we will lead the way in delivering innovative and influential learning experiences for business executives and skilled workforces towards nation building. We offer UNIMAS postgraduate programmes and as well as Executive Programmes for working adults.

Our academic and executive programmes are taught by a group of dedicated and qualified teaching faculty members and as well as facilitators with industry experience. Our Executive MBA programmes are innovative, application-oriented and multi-disciplinary.

PROGRAMME OVERVIEW: EXECUTIVE MASTER IN PROJECT MANAGEMENT AND LEADERSHIP

The Executive Master in Project Management and Leadership is specially designed to help students navigate the dynamics of managing large and time-bound projects with STEM as its backdrop. STEM stands for Science, Technology, Engineering, and Management. Hence, the programme offers interdisciplinary lessons and exposure to the students. Students will be exposed to an extensive curriculum designed to help them gain a comprehensive understanding of project management to become an effective project manager. Some of the areas are organisation design, data management, cost management, logistics, risk analysis, and quality assurance.

Upon completion, students will become a much better leaders, resource planners, and smart managers while assisting them prepare for a more integrated and competitive world ahead.

Students will get confidence to take up different project management roles in several industries. These include healthcare, construction, engineering, technology, and others. The programme also teaches high-demand skills in this industry and caters to future requirements as well.

In total there are eight (8) modules including a final project paper or a case study in this programme. The Executive Master in Project Management and Leadership is special because the programme is meant for learners coming from almost all industries and they will be able to work across multiple industries reflecting current research trends and best practice in the industry.

In collaboration with UNIMAS Business School and Industry Subject Matter Experts (SMEs), we use a blended learning method, case studies, lecture and discussion, group work, simulation and analytical exercises to deliver the programme.

PROGRAMME OBJECTIVES

Our learners will be better equip to organise and manage both people and resources in order to meet targets, optimise efficiency, guarantee quality of work and implement time management and productivity systems. They will truly understand key project management themes, including people and business management and budgets; and applying these skills at workplace effectively.

They will also explore new developments in technologies that promote digital Project Management and working remotely along with developments in AI, Automation and latest in the Manufacturing sectors. They will develop skills required for successful and agile project management.

This programme also further develops a series of secondary skills that are in high demand in practically every industry. These essential skills include: Inter-personal communication skills, critical thinking, problem solving, ICT with critical thinking
